The phrase "the length of the law" owes its origin to the enormous length of some of the parchment rolls upon which the ancient statutes of Great Britain were inscribed. The present day official title of the "master of the rolls" is a reminder of this ancient custom. Some faint idea of the bulk of the English records may be obtained from the fact that a single statute, the land tax commissioners act, passed in the first year of the reign of George IV., measures when unrolled upward of 900 feet!

An Ibsen Theory. In one of the published letters of Ibsen he says that while he was writing one of his plays he had on his desk an empty ale glass with a scorpion in it. Now and then the animal would grow sick, and the author would throw a piece of soft fruit to it, whereupon the scorpion would fall upon the food furiously, empty its poison into it and then get well again. "Is it not a good deal like this with us poets?" Ibsen continues. "Nature's laws apply in the domain of the spirit also.
